

# *Glimpses*

Olga  
Grigorieva-Klimova

Catalogue 2020

Born in Crimea in 1984, Olga was finely educated from the Crimean Art College, followed by the National Academy of Fine Arts and Architecture in Kiev.

She currently lives and works in Crimea and, since 2007, has actively participated in the Republican (Crimean), Russian and all of the Ukrainian exhibitions. Her works are displayed in the Kiev Museum of Modern Art, as well as kept in private collections in Ukraine, Russia, The United States of America, Taiwan, Poland, Romania, China, Switzerland and Great Britain.

As a humble artist, she doesn't limit herself in any strata of medium or ideas and thus allowing her to create the miracle in her works. One's inaccuracy in portraying the real, according to Olga, is priceless, since it's inherent only to the artist. After a deeper understanding of the conventions in art, Olga reveals that the best way to perceive the details in vision is to look beyond them; admitting the task to be arduous, not just in painting but, in life as well!

Olga ceaselessly intends to capture on a canvas, all the beauty that delights her. In this series, Olga worked to notice certain ordinary glimpses that she came across, speculated and caught them on her canvas in her own distinctive way to showcase them as extraordinary portrayal for us. The "glimpses" she chose would be from our regular acquaintance but when it traversed through Olga's sketches, colours and brush strokes, they terminate to be inexplicable creations in art! The quiddity of Olga's paintings is her unique style and approach to art. With expressions and emotions being played harmoniously with colours which often speaks profusely, on the canvas, one must not miss the proficiency of Olga's composition. Once you stand in front of Olga's painting, you just not merely sense an ethereal beauty, but also awe at a remarkably challenging artwork too!

The N2N Gallery is equally honored and excited to conduct an exhibition with this extraordinarily talented artist! Olga's art is not just unique, but precarious and remarkable too! We believe it's always best to create exceptional out of the very typical, though the task is often hard. Olga's art does the very same and we, thus, welcome you to be part of this exclusive experience, here in the N2N Gallery.

WILD GRAPES  
acrylic on canvas
